Safety & Health Policy

Safety is a requirement in all what we do at Mannai Enterprises. We strive to achieve a position of SAFETY leadership in the industry. We care about other and those around us and we believe injuries are preventable. We are committed to the following safety principals:

SAFETY is the direct responsibility of each person and each group in the organization. You cannot transfer this responsibility for SAFETY-TO-SAFETY personnel or anyone else. Every individual must consider himself as part of safety effort and participate in the programs designed for safe working environment and attitude.

All injuries can be prevented. Correction of conditions and unsafe acts before an injury occurs requires alertness. knowledge and continual observation by all employees.

All exposure, which may result in injuries. can be reasonably safeguarded. Elimination of danger Sources is the preferred course of action. However. where this is not possible or practical, protective measures must be utilized.

All hazards associated With the operations at Mannai Enterprises can and Will be managed to ensure the HEALTH and SAFETY Of Mannai Enterprises Company's employees and any other with whom we interact.

Effective training Will be utilized to assure that every person has the knowledge to work SAFELY and to be prepared for emergencies.

Any employee could stop the work or job, if he feels that, it is unsafe or may result with an injury or accident.
